Most eye injuries
among kids aged 11-14
occur while
playing sports.

**Super
spec
tacular**

45,000+

sports and recreation-
related eye injuries
occur each year.

Post 1:

Apply a small cold compress to reduce pain and swelling. Be careful not to apply any pressure.

If a black eye, pain, or visual disturbance occurs (even if the eye wasn't hit that hard) contact your doctor or go to the Emergency Room immediately. You're always better safe than sorry! **Learn more here: superspecs.org**
